# Golf Capes.

Now there's a difference in Golf Capes-in the material, make-up, style and fit. It's as easy to get one that has all good points as it is to get Being Constructed by the Wheeling one otherwise-the only thing is where you get it. We can't get those pretty shapes and "Scotchy" effects in print, but we have them in IT IS THE FIRST OF ITS KIND this space is enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by brick walls, three feet thick, running around the enclosed by the encl our stock in Ladies', Misses' and Children's Golf Capes.

(Child's #1 - - - \$4.75 to \$11.00. Ladies' and Misses' \$6.50 to \$35.00.

For those who want dressy, but not flashy capes, we have "Velour," edged with Thibet, Marten and Bear Fur, made plain or braided with jet-\$6.98, \$8.50, \$10.00, \$11.00.

# Jackets.

We don't think we are exaggerating when we say we can accommodate all comers with the best line of Jackets shown in this vicinity for a rage for a year or two. These were Misses and Ladies; also small Reefers for Wheeling, at Sixteenth and Market Wheeling, at Sixteenth and Chapter with capes, we streets, at Twenty-second and Chapter Children. Prices-well, like with capes, we can't show quality on the paper, but we have

Jackets at \$4.50, \$5.00, \$5.98, \$6.50, \$8.50,

in Castor, Tan, Black, Navy and Military Blue, exclusive novelties and styles, upwards to \$25.00-made and designed by artists in their line.

### AN ICE RINK

Ice and Storage Company,

Ever Projected in West Virginia, and the Promoters Believe It Will be Received With Satisfaction by the Devotees of the Skating Pastime-It Will be, Equipped in an the same process the company uses in Up-to-Date Manner, Says Mr. Con-

Wheeling will boast shortly of an lee skating rink. This will sound queer to the natives of northern climes who associate West Virginia in the column of typical southern states. But the ice were being considered for special feat-rink is not the outcome of any natural ures during the season. Skates will be facilities for its consummation in this particular stretch of the Ohio valley. with a modern ice rink would be pre-It is merely the outgrowth of ice made while you wait. More to the point, the would be catered to. A systematic ar-Wheeling Ice and Storage Company is now constructing the rink at its plant, at Twenty-third and Water strets.

There never was an ice rink in this line, and in the old Alhambra building, south of Wood Bros, planing mill, and which was razed to the ground a few weeks ago. Roller skating fell into bad hands and its revival is not due for a ong time, but ice skating is a recreation that brings pleasure and exhilarated spirts to thousands of people young and old every year, when President Winter is returned to the executive

Secretary-Treasurer C. W. Conner, of the Wheeling Ice and Storage Company, has become impressed with the idea that Wheeling would pattern after the opportunity, and his well laid plans do not promise to "gang aglee." Mr. Conner has given the project consider-ble study and on Thanksgiving evenng he hopes to have the pavillion opened for a skating season, which will extend to the close of February. A force of men has been working since Monday of men has been working since Monday
on the preliminary details, and when an
intelligencer reporter visited the scene

| All for next year. | It. All first-class grocers sell Gri

vesterday, everything seemed to be

progressing smoothly.

The storage house at the ice plant affords excellent facilities for the rink. It is a large and commodious frame structure, with a floor of 50x100 feet in capacity. Over this earthen floor surface there is being laid bricks, flushed with closure, thus forming a basin. Colls of pipe, six inches apart will be stretched over the floor, over which water one foot deep will be flooded. The pipes contain brine for congealing the water, making its ice.

Mr. Conner stated that the rink would be fitted out with a band stand, check and tollet rooms, offices, etc., and if the patronage justified it, a balcony would amusement attractions, such as refined trapeze specialties by imported talent, sented, and only the best elements rangement throughout would rule.

The Duquesne rink in Pittaburgh cost \$100,000 for its construction, and it is said, the receipts last winter totaled \$50,000. The Pittsburgh rink is a more pretentious institution, of course. Hockey games there are a feature, and it is not unlikely that local admirers of rink, if the conditions are favorable. skating from November 1 to March 1 every year, but the opening will not occur until Thanksgiving day this sea-

METAL MARKET REVIEWED. The Demand for Iron and Steel Will Prevent a Decline.

The disposition on the part of some of the large-buyers to demand a lower price for iron and steel has given rise to the opinion that there would be quite Pittsburgh, Washington, Philadelphia says the Ohio Valley Manufacturer, in and the larger eastern cities if given its current issue. There is no foundaits current issue. There is no founda-tion for the belief. The demand for spot iron is large enough to prevent any surplus for the next six months.

Pig iron continuer in demand and at firmer prices. Some contracts made firmer prices. Some contracts made from 25 to 50 cents over last week's rate. Orders for foundry iron were large and important, covering in one case the

So much inquiry steadies the market, and keeps the price at about Mr.

Finished Material.—Bars have advanced one-tenth, quotations at seller's mills being 2.10 for common iron, 2.20 for the best refined and 2.20 for test iron. Business is active in all departments, and full prices are easily obtained, and not infrequently sharp premiums are paid for quick delivery.

Old Material.—So much depends on the buyer of old material that a difference of three to eight dollars for practically the same material is no surprise. While the feeling is nervous, the price is not weak. There are not many sales reported, at the top figures.

### FORT HENRY TABLET.

First Meeting of the Committee in Charge of Arrangements for the Exercises-Another Meeting is to be Held To-night.

Last night, at the chamber of comerce, the committee named to have charge of the exercises attending the placing of the tablet on the site of Fort Henry, in this city, where the last bat-tie of the American Revolution was fought, met informally, only four of the nine members being present, the others being detained by previous engage-ments. It was decided to adjourn until this evening, when details of the exercises will be taken up.

Members of the Sons of the Revolu-tion, who were present, insisted that the words, "Under Auspices of Sons of the Am. Rev." which were placed upon the tablet without authority from Mr. Garvin, of the legislature's committee, be taken off, and Mr. Garvin replied that he had already given orders to the makers of the tablet to cut out the obectionable line. This is only an act of

**BRAINS ARE** Built

From certain kinds of Food Grape-Nuts

Furnish It.

### How to Make Nervous People.

"America has become a land of nervous emotionalists, largely owing to our sins against dietetic health laws of nature.

Only outdoor exercise in a cold cli mate would enable vigorous individuals of our species to digest the viands forced upon alimentary organs enfeebled by sedentary occupations, writes Dr. Felix Oswald.

Brain workers must have differen food than day laborers, because brain work uses up parts of the brain and nerve centres, while physical labor uses up other parts of the body. A food for brain workers has been prepared by scientific food makers and called Gray scientific food makers and called GrapeNuts. It is a pure, natural food made
from selected parts of field grains
known to contain the natural phosphate
of, potash and other elements used by
the system in rebuilding and repairing
the brain and nerve centres. This food
is skilifully cooked at the factory and
is ready to be served instantly either
cold with cream, or as a hot breakfast
dish with hot milk or cream poured over
it. All first-class grocers sell GrappNuts, and the Posium Co., at Battle
Creek, Mich., manufacture the food.

justice to the Sons of the Revolution, as the tablet is not erected under the auspices of either of the two societies, but under the direction and at the expense of the state of West Virsina. Members of the Sons of the American Revolution, who were present, offered seobjection to the cutting out of the line. While nothing was decided upon at last night's meeting, it was suggested that the tablet be presented by a speaker representing the state, probably, either Governor-Attinson or Chairman Garwin, of the legislative committee, and that it be accepted on behalf of the city of Whoeling by Mayor Sweeney and by speakers representing respectively the Sons of the Revolution and the Sons of the American Revolution.

All of the members of the committee at the meeting were enhaustastically for having public exercises at the time the tablet is placed in position.

When the kidneys are sound they draw the uric acid from the blood. When they are unsound the acid remains, to shatter the nerves, to weaken the heart and to dull the brain.

There has never been but one way by which the kidneys could be kept in perfect condition and good working order, and that is, by the use of WARNER'S SAFE CURE.
